About Aquarius Environmental Division

Aquarius Engineers began operations in 1981. In 1985 the company diversified into sales & service organization, representing world leaders in the construction equipment business. Aquarius has grown dramatically, since then, into a multifaceted, multi-venture, manufacturing conglomerate. With prestigious joint ventures and associations under wings, state-of-art manufacturing plants at Pune & Goa and offices spread out across the country, it has been truly a 'Tryst with Technology' for Aquarius. In addition to the local market the company also exports to nearby countries.

Aquarius Environmental Division started with a collaboration with **STA GmbH, Germany** for the manufacture of a wide range of Centrifuge Separators. This helped in catering to many of the solid-liquid separation requirements of the industry. Subsequently, Environmental Division entered into two more collaborations viz. **HYDRO ITALIA Srl, Italy** for manufacturing of a wide range of Automatic Paint Sludge Removal Systems and Chemicals, as well as **IRAC Tech Srl, Italy** for Solvent Recovery Plants.

Aquarius House

Today, we are widely recognized as a knowledge based entity, providing guaranteed solutions to those who care about the environment, just like we do.

Understanding of updated industry-specific requirements, proactive design considering latest technology and a turnkey approach has helped the Environmental Division chalk many a success stories in the market like Skoda Auto Volkswagen India, Mahindra & Mahindra, DANA, Sandvik Asia, Polyplastics and many more.

Expertise

Aquarius believes in a shirtsleeve approach, working closely with customer's personnel. It has led to a better understanding of the facts and the most apt application of the data and technology.

We have with us experienced technologists and experts in the relative application areas like Paint & Phosphate Sludge Removal, Coolant & Oil Cleaning, Solvent Recovery, Glass Fines Removal, Solid-Liquid Separations, etc. Expert members are trained with local and global leaders in specific industry.

Centrifuge Separators

Paint Sludge Removal Systems

Solvent Recovery Plants
